CONSUL

Oh, I think you have an infection. I will write a prescription for medicines.

Thank you
Doctor

A cartoon illustration of a medical shop. A woman with dark hair, wearing an orange hoodie, stands facing a male pharmacist in a white lab coat. The woman is holding a white card with a large 'RX' on it. A speech bubble from the woman says, 'Anna please give me these medicines?'. The pharmacist is smiling. In the background, there are shelves filled with various medicine bottles. A yellow speech bubble on the right side of the image says 'Medical Shop'.

Medical Shop

Anna please
give me these
medicines?

Medical Shop

Thank
you!

Discussion: Note the responses on the board as you ask questions about the entire scenario.

1. How was Ishita feeling?
2. What did she do when she felt sick?
3. Where did she go first?
4. What did she do at the petrol bunk?
5. How much did she pay?
6. Where did she go next?
7. Who asked her to pay money at the hospital?
8. How much did she pay?
9. Where did she go next?
10. How much did she pay for the medicines?

Let us summarise how she spent money.

Petrol - Rs. 500

Hospital - Rs.200

Medicines - Rs.250.

11. How much did she spend in total? (Let children respond using either their books or calculator.)

12. What are the things she bought? (Petrol and medicines)

13. Did she buy anything at the hospital?

14. Why did she give money to the receptionist? (To see the doctor)

15. Which person saw her only when she paid the money? (Doctor)

Conclude:

- A. Travel to hospital (needs petrol → needs money)
- B. Doctor visit (consultation fee → needs money)
- C. Buy medicines at pharmacy (needs money)

So, we pay money

- a. To buy things
- b. To some people when they help us.
